Price: \$159.00 Flaker or Food Processor purchased with Jupiter®  
Grain Mill  
\$249.00 Basalt Stone Grinder

Jupiter Mill w/ Steel Attachment

## JUPITER® FLAKER MILL

**Quality:** Manufactured in Germany, the **Jupiter® Mill** Flaker Attachment is built with premium Lexan® plastic with the roller mechanism made of hardened surgical stainless steel.

**Fast & easy to use:** A cup of rolled oats is produced in less than a minute with the electric base and less than two minutes with the hand base. The large 5 cup open hopper lends itself for continuous rolling and flaking.

**Easy Set up and Fast Clean up:** The Flaker mill will fit on either the motor base or the hand base with a twist of the wrist. The Flaker Attachment detaches simply and quickly for easy cleaning.

**Rolls and Flakes:** Oats, wheat, rye, spelt, kamut; may be used for hot or cold cereals, granola, cookies, cakes, meat extenders.

## JUPITER® FOOD PROCESSOR

**Quality:** Manufactured in Germany, the **Jupiter® Mill** Food Processor Attachment is built with premium Lexan® plastic with three stainless steel drums.

**Easy to set up and fast Cleanup:** Three drums come with the Food Processor as listed below. Each drum slips in and out for fast slicing, grating and julienne. They are Dishwasher safe and easily snap onto the motor base or hand base. Comes with a Stomper

### Drums:

#1 Universal Drum - Finely grates hard cheese, thin string softer cheese, ground nuts, carrots, and apples

#2 Slicing Drum - Slices cabbage for cole slaw or kraut. It produces even slices for dehydrated foods. It also slices cucumber, carrots, and onions for salads and potatoes for fried chips or scalloped potatoes.

#3 Coarse Drum - Julienne vegetables for soups, cheese for tacos, salads, toppings, apples and pears.
